

Quality & Safety Testing from Cell to Plate

Cell-Based Proteins Food Research

Access innovative solutions for your protein alternatives research, bioproduction, and QC testing.

Visit fishersci.com/food-beverage-testing or fishersci.ca/food-beverage-testing to learn more.

Collaborating to Provide **Innovative Solutions** for Your Industry

- Sample integrity
- Chain of custody
- Data management and secure connectivity
- Cross-contamination prevention
- Regulation and compliance
- Supply chain diversity
- Greener, more sustainable choices

The global food and beverage market is expected to grow at a CAGR of **7%** starting in 2021, potentially reaching **\$7.5 trillion** in **2023**.¹

By **2027**, the plant-based food market is expected to be worth

\$74.2 billion²

By **2030**, the cultured meat market is expected to reach

\$94 billion³

The botanical ingredients market is expected to grow at a CAGR of **7%** from **2020** to **2027**.⁴

Easy and Efficient Sample Handling

Do contaminated or wasted samples cause delays in your production processes? Field and lab technicians around the world want to resolve these issues and increase efficiency, but they need the right products. Trust Whirl-Pak™ sampling solutions to help protect your science and your time.

Quick-Release, No-Fuss Handle

Whirl-Pak Polyurethane Surface Sampling Sponges

- Tear resistant for improved sampling
- Greater absorbency and retention for analysis
- Hydrated with a neutralizing sanitization solution

Collect, Blend, and Incubate in One

Whirl-Pak Full-Page Filter Bags

- Made of a puncture-preventing polyethylene film
- Designed for use with homogenizer blenders
- Help you count colonies instead of debris

Works Like a Bottle, Costs Less

Whirl-Pak Stand-Up Bags

- Save storage space and keep costs low
- Designed for both liquids and solids
- Stand by themselves for easier sample handling

Sustainable Water Sampling

Whirl-Pak Thio-Bags

- Contain a sodium thiosulfate tablet to neutralize chlorine
- Lower product and disposal costs
- Reduce the environmental impact of sampling
